Mr. Wilson I am deeply appalled by Mr. Snells increasingly disturbing content on social media platforms, now Mr. Wilson the world doesn't revolve around my single opinion and I know that but now I'm hearing that the kids have taken to the social medias such as Twitter and Tik Toks which I believe might be related and are making video collages of his posts and involving other children, calling the high school the academy for racists? What will become of the Laquinta high-school reputation if this is seen by more people? I suggest you look into the social media accounts being made by the student youths who found out about this misogynistic and racist behavior, it's very unbecoming for someone regularly communicating with children. -Joanne

You're welcome, I did not further explore this new account but from the information I got from the younger people it's about the same with the exception of having fouler language than his public Facebook. Thank you kindly for reviewing this information.

I am quite frankly appalled. This inappropriate behavior was just brought to my attention by a former student of yours. I am not one to involve myself in politics but the blatant racism and misogyny is inexcusable. Mr. Snell's Facebook page was found easily as could be by any student or parents involved with this school. These are just a few of many offensive, disgusting posts.

Mr. Snell has also been witnessed in public going directly against CDC guidelines and endangering the lives of the general public as he has also confessed to such actions in one of the posts provided below. I have no direct intent with this email but to inform you of such actions. I do not expect a response I only ask to remain anonymous to Mr. Snell as to me he seems to exhibit dangerous behaviors.

The images below were provided to me by said former student, they would prefer to remain anonymous entirely. They have also made a formal report through your website, thank you. -Joanna

Now this is strange. Just went to <https://www.cnn.com/> to check the the covid updates .

Strange thing there really wasn't anything, just one blurb of fear-porn to get people to hoard toilet paper again, under a story about "comedian" Colbert.

What gives cnn, are we still in a pandemic? Don't you care about covid anymore?

What are other sites like that are normally COVID COVID COVID? What happened to all the wear a mask billboards?

I went to the store this morning and saw 6 other people with no masks--I'm usually the only one. What do you see? 

Was it ever about the virus, or was it always about the election--to provide a means to an end?

The great Texas bus caper. Libtard clearly had abandoned the lane, then tried to push the truck off the road. You are welcome FBI, your job is clear, arrest the libtard for bad driving.
